

BOTANY 2021: Virtual

July 19-23, 2021

botanyconference.org

Diversity and Inclusion Initiative

BOTANY 2021 is the national meeting of several societies interested in plants, including areas such as ecology (e.g., plant-animal interactions, climate change), systematics, paleobotany, and much more.

The Diversity and Inclusion Initiative promotes conversations about educating for a diverse and inclusive botany community, and encourages community college, tribal college and university, and other minority-serving institution faculty to join the Botany community and contribute to these conversations.
